The Viya team believes that it does much ***more than provide service***, they are ***of service*** to the community.

Beyond the official Viya sponsored events, it is clear that Viya team members spend a large amount of their time assisting with the efforts of very worthy charitable organizations.

Viya has a long history of supporting educational initiatives particularly programs centered on Science, Technology, Engineering and Mathematics, literacy, youth initiatives, women's initiatives, the arts or economic development in the Territory.
